

SAFETY DATA SHEET

Section 1: Identification: Product identifier and chemical identity

Product Identifier:	ACELEPRYN GR® Turf Insecticide
Other Means of Identification:	Proper shipping name: : Environmentally Hazardous Substance, Liquid, N.O.S. (chlorantraniliprole) Applicable only for marine and air transport
	Product code: A20375A
Recommended Use:	For the control of African Black Beetle, Argentinian Scarab, Argentine Stem Weevil, Billbugs and other insect pests in turf
Details of manufacturer or importer	Syngenta Australia Pty Ltd ABN 33 002 933 717
Address:	Level 1, 2-4 Lyonpark Road MACQUARIE PARK NSW 2113 AUSTRALIA
Website:	syngenta.com.au
Phone Number:	(02) 8876 8444
Emergency Phone Number:	24 hours - 1800 033 111

Section 2: Hazards identification

Classification of the Hazardous Chemical:	Not classified as hazardous under GHS criteria
Signal Word:	-
Hazard Statement(s):	-
Precautionary Statement(s):	-
Hazard Symbols:	-

Section 3: Composition and information on ingredients

SUBSTANCE	
Chemical Identity of Pure Substance:	Chlorantraniliprole
Synonym:	SYN 545170
CAS Number:	500008-45-7

MIXTURE		
Chemical Identity of Ingredients:	CAS No	Proportion (% w/v)
Chlorantraniliprole	500008-45-7	>= 0.1 - < 0.25
polybutene	9003-29-6	>= 1 - < 10
Non-hazardous ingredients	-	to 100

Section 4: First aid measures

<p>Description of Necessary First Aid Measures:</p>	<p>First Aid is generally not required. If in doubt, contact a doctor or Poisons Information Centre. Phone 131 126. Have the product label or SDS with you when calling or going for treatment.</p> <p>Ingestion: If swallowed, seek medical advice immediately and show this container or label. DO NOT induce vomiting.</p> <p>Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.</p> <p>Skin contact: Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.</p> <p>Inhalation: Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or poison control centre immediately.</p>
<p>Symptoms Caused by Exposure:</p>	<p>Poisoning symptoms in laboratory animals were non-specific</p>
<p>Medical Attention and Special Treatment:</p>	<p>There is no specific antidote available. Treat symptomatically.</p>

Section 5: Fire fighting measures

<p>Suitable Extinguishing Equipment:</p>	<p>Small fires: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide or water spray Large fires: Alcohol-resistant foam or Water spray</p>
<p>Specific Hazards Arising from the Chemical:</p>	<p>As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10). Exposure to decomposition products may be a hazard to health.</p>
<p>Special Protective Equipment and Precautions for Fire Fighters:</p>	<p>Wear full protective clothing and self-contained breathing apparatus</p>

Section 6: Accidental release measures

<p>Personal Precautions, Protective Equipment and Emergency Procedures:</p>	<p>In case of spillage it is important to take all steps necessary to</p> <ul style="list-style-type: none"> • Avoid eye and skin contact • Avoid contamination of waterways
<p>Environmental precautions:</p>	<p>Prevent further leakage or spillage if safe to do so. DO NOT flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.</p>
<p>Methods and Materials for Containment and Clean Up:</p>	<p>Procedure for spill</p> <ol style="list-style-type: none"> (1) Keep all bystanders away (2) Wear full length clothing and PVC gloves (3) Reposition any leaking containers so as to minimise further leakage (4) Dam and absorb spill with an absorbent material (eg sand or soil) (5) Shovel the absorbed spill into drums

- (6) Disposal of the material will depend upon the extent of the spill
- For quantities up to 50 kg of product bury in a secure landfill site
 - For quantities greater than 50 kg seek advice from the manufacturer (use emergency contact number below) before attempting disposal. Contain in a secure location until disposal method is established
- (7) Decontaminate spill area with detergent and water, avoid solvents and rinse with the smallest volume of water practicable

Section 7: Handling and storage

Precautions for Safe Handling:	No specific precautions are required.
Conditions for Safe Storage, Including any Incompatibilities:	Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight.

Section 8: Exposure controls and personal protection

ALWAYS READ AND FOLLOW THE LABEL INSTRUCTIONS AND WARNINGS

	Component	Exposure limit	Value type
National Exposure Standards:	No exposure standard allocated		
Syngenta Exposure Standards:	Chlorantraniliprole Total dust	10 mg/m ³	TWA
	respirable dust	5 mg/m ³	TWA
Biological Limit Values:	No biological limits allocated		
Engineering Controls:	No special requirements. Product is used outdoors.		
Personal Protective Equipment:	No special personal protective equipment is required.		

Section 9: Physical and chemical properties

Appearance:	Light brown granules	Boiling Point/Range:	No information available
Odour:	Slight	Freezing/Melting Point:	No information available
pH:	7.3 1% solution	Solubility:	Soluble in water
Vapour Pressure:	No information available	Bulk Density:	0.85 g/ml
Vapour Density:	No information available		
Flash Point:	Not flammable	Explosive Properties:	Not explosive
Upper and Lower Flammable (Explosive) Limits in Air:	No information available	Oxidising Properties:	Not an oxidiser
Ignition Temperature:	Not flammable	Combustibility:	No information available
		Corrosiveness:	No information available

Section 10: Stability and reactivity

Reactivity:	No hazardous reactions by normal handling and storage according to provisions.
Chemical Stability:	The product is stable when used in normal conditions
Possibility of Hazardous Reactions:	No hazardous reactions by normal handling and storage according to provisions.
Conditions to Avoid:	No decomposition if used as directed
Incompatible Materials:	No substances are known which lead to the formation of hazardous substances or thermal reactions.
Hazardous Decomposition Products:	Combustion or thermal decomposition will evolve toxic and irritant vapours.

Section 11: Toxicological information

Health Effects from Likely Routes of Exposure:		
Acute	Oral toxicity:	LOW TOXICITY Tests on rats indicate this product has a low toxicity following single doses of undiluted product LD ₅₀ = >5,000 mg/kg
	Dermal toxicity:	LOW TOXICITY Tests on rats indicate this product has a low toxicity following skin contact with undiluted product LD ₅₀ = >5,000 mg/kg
	Inhalation:	LOW TOXICITY Tests on rats indicate this product is not harmful due to inhalation of undiluted product LC ₅₀ (4 hours) = >5.2 mg/L
	Skin irritation:	NON IRRITANT
	Eye irritation:	NON IRRITANT
	Sensitisation:	NOT A SENSITISER
Chronic	Chlorantraniliprole technical has been extensively tested on laboratory mammals and in test tube systems. No evidence was obtained of mutagenic, carcinogenic, teratogenic or reproductive effects	

Section 12: Ecological information

Ecotoxicity	Toxicity to fish:	Slightly toxic to fish Common carp (<i>Cyprinus carpio</i>) LC ₅₀ (96 hours) >100 mg/L
	Toxicity to daphnia and other aquatic invertebrates:	Very highly toxic to Daphnia Water flea (<i>Daphnia magna</i>) EC ₅₀ (48 hours) = 1.77 mg/L
	Toxicity to algae:	Practically non-toxic to algae Green algae (<i>Pseudokirchneriella subcapitata</i>) ErC ₅₀ (72 hours) = 100 mg/L
	Toxicity to soil dwelling organisms:	Practically non-toxic to earthworms <i>Eisenia foetida</i> (earthworm):

	LC ₅₀ >2000 mg/kg, 14 day data from a similar formulation
Persistence and Degradability:	Chlorantraniliprole is not readily biodegradable
Mobility in Soil:	Chlorantraniliprole has medium mobility in soil
Bioaccumulative Potential:	Chlorantraniliprole does not bioaccumulate

Section 13: Disposal considerations

Disposal Methods:	Triple-rinse containers before disposal. Dispose of rinsate or any undiluted chemical according to state/territory legislative requirements. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. DO NOT burn empty containers or product
Special Precautions for Incineration or Landfill:	Not applicable

Section 14: Transport information

LAND TRANSPORT ADG	Not a dangerous good in Australia		
UN Number:	None allocated	Packing Group:	None allocated
UN Proper Shipping Name:	None allocated	Special Precautions for User:	None allocated
Transport Hazard Class:	None allocated	Hazchem or Emergency Action Code:	None allocated
Subsidiary Risk:	None allocated		

SEA TRANSPORT IMDG			
UN Number:	3082	Subsidiary Risk:	None allocated
UN Proper Shipping Name:	Environmentally Hazardous Substance, Liquid, N.O.S. (chlorantraniliprole)	Packing Group:	III
Transport Hazard Class:	9	Environmental hazards for Transport Purposes:	Marine pollutant

AIR TRANSPORT IATA - DGR			
Take details from global SDS			
UN Number:	3082	Subsidiary Risk:	None allocated

UN Proper Shipping Name:	Environmentally Hazardous Substance, Solid, N.O.S. (chlorantraniliprole)	Packing Group:	III
Transport Hazard Class:	9		

Section 15: Regulatory information

APVMA Product Number:	85185
Poisons Schedule (SUSMP):	Exempt

Section 16: Any other relevant information

Date of preparation or last revision: November 2016
Source of Data: The information provided in this SDS is sourced from Syngenta internal studies which have been conducted according to Regulatory requirements including OECD and CIPAC Guidelines and EC Directives. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.
Note: This product is a registered agricultural chemical and must, therefore, be used in accordance with the container label directions
CONTACT POINT: Regulatory Affairs Manager, Syngenta Australia Pty Ltd (02) 8876 8444 24 HOURS EMERGENCY CONTACT: 1800 033 111
This Material Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products. If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
DISCLAIMER This product complies with the specifications in its statutory registration. Implied terms and warranties are excluded. Syngenta's liability for breach of the express or any non-excludable implied warranty is limited to product replacement or purchase price refund. The purchaser must determine suitability for intended purpose and take all proper precautions in the handling, storage and use of the product including those on the label and/or safety data sheet failing which Syngenta shall have no liability.
